Powershell

Parsen eines GPO-Reports im XML-Format und Ausgabe in CSV (inkl. optionalem Kommentar):

transformpoXmltoCsv.ps1

```
Select-Xml -Path .\XmlFiletoParse.xml -Namespace
@{GPO='http://www.microsoft.com/GroupPolicy/Settings/Registry'} -XPath
"//GPO:Policy" | Select-Object -ExpandProperty "Node" | Select
Name,State,Comment,Explain,Supported,Category | Export-Csv "Result.csv"
-Encoding "UTF8" -Delimiter ";" -NoTypeInformation
```
